

Shadows Of My Mind

In the shadows of my mind
I see her just the way she used to be
And When I'm alone at night
and I turn off the lights
She goes walking through the shadows of my mind

She's just a girl I used to know, a long, long time ago
I did her wrong just one too many times
And when I go home at night and finally close my eyes
She goes walking through the shadows of my mind

In the shadows of my mind
I see her just the way she used to be
And When I'm alone at night
and I turn off the lights
She goes walking through the shadows of my mind

Fiddle break

Well I'm trying to forget but I haven't forgotten yet
And Through the days I seem to make it fine
But when I'm alone at night
and finally close my eyes
She goes walking through the shadows of my mind

In the shadows of my mind
I see her just the way she used to be
When I'm alone at night
and I turn off the lights
She goes walking through the shadows of my mind

And When I'm alone at night and I turn off the lights
She goes walking through the shadows of my mind
